[1] Bush knew at least by last August that Iran had no Nuclear Bomb Program

by David Duke

ABC News has reported that President Bush has known at least since last August that Iran had no ongoing nuclear weapons program since 2003, yet the Bush administration continued to lie to the American people and to the world by saying that Iran was clearly pursuing nuclear weapons.

White House Knew in August Iran Had Halted Nuclear Weapons Program

December 05, 2007 6:57 PM ABC News' Martha Raddatz Reports:

The White House made a stunning admission Wednesday that appeared to suggest President Bush has directly contradicted himself about when he learned U.S. intelligence that Iran had halted its nuclear weapons program. During a press conference on Tuesday, the President told reporters that he was briefed that there was new intelligence information about Iran, but nothing specific. "I was made aware of the NIE last week," Bush said Tuesday. "In August, I think it was [Director of National Intelligence] Mike McConnell came in and said, we have some new information. He didn't tell me what the information was; he did tell me it was going to take a while to analyze."

However today the White House is saying the President was told much more.

After taking a reporters' question earlier today about exactly what the President was told, White House press secretary Dana Perino provided a response to reporters Wednesday night. Perino stated Bush had been told in August that Iran suspended its covert nuclear weapons program...The latest National Intelligence Estimate — declassified excerpts of which were released on Monday — found that Iran actually shelved its nuclear weapons program in 2003.

Despite the fact that Bush was told in August that U.S. intelligence agencies believed Iran's nuclear weapons program had been halted, the Bush administration continued to raise the rhetoric against Iran, calling for a third round of United Nations sanctions.

The President even warned publicly in October about a World War III if Iran didn't cease their weapons program.

To the Jewish Supremacists and their chief puppet of the moment, George Bush, truth needs to have no relation to hype. And to a point they are right. It is no matter to these traitors that the government's stop spy agencies have said that Iran has no atomic bomb program, and that it hasn't had one for 5 years! The Neocons simply will say that deep in their heart they know that the evil Iranians must want one (of course what healthy people wouldn't want the means to defend itself -dd) so we must destroy their economy, overthrow their regime and maybe even nuke them!

The real reason they want war against Iran has never been any legitimate fear of nuclear weapons, or the danger of fueling a Mideast nuclear arms race, for if that were so why doesn't America demand that Israel dismantle their nukes and their biological and chemical weapons of mass destruction?

Iran has become an enemy of America and Europe for one reason and one reason only, Iran is a

powerful opponent of Israel. So it doesn't matter if they have a nuclear weapons program or not, Neocons hate Iran and want to harm Iran because it is militarily powerful and supports the enemies of Israel.

The warmongering of the puppet of Israel, George Bush, against Iran is in the same fashion as his former warmongering against America's one time ally, Saddam Hussein. Iraq as everyone now knows, had no weapons of mass destruction, but Iraq was a powerful enemy of Israel that supported the Palestinians and other opponents of Zionism, so, it had to go.

Of course, with their dutiful servant George Bush, they used trillions of American dollars and tens of thousands of ruined or lost American lives to serve Israel's agenda. They know that as long as they can heavily influence the media and the politicians that they can ignore the truth, obfuscate it, bury it in their own propaganda over time.

Most of the civilized world now believes that President Ahmadinejad threatened to "wipe Israel off the Map" even though he said no such thing. The average person doesn't analyze things, he is strongly influenced by the frequency in which he hears things. Because those who follow the news have now heard for the hundredth time that Ahmadinejad wants to "wipe Israel off the map," i.e. nuke Israel, most believe it is a fact, and not a lie.

President Nixon resigned because he faced a certain impeachment because of his lies and cover ups. What Bush has done is much worse, he lied and covered up the truth to promote a deadly and devastating Iraq War, a war based on lies that ultimately caused the death of a million Iraqis and maimed or killed tens of thousands of precious American lives and billions of American dollars. If any President ever deserved impeachment and imprisonment, it is George W. Bush!
